CAPABILITY STATEMENT

INNOVATING FOR CHANGE

Founded in 2011, Cyber Security Solutions, LLC, doing business as CSS Federal, is a **Small Disadvantaged Business** that helps federal agencies modernize critical systems, secure sensitive information, and sustain mission operations. Together with our wholly owned subsidiaries, **C&T Technologies** and **C&T Solutions**, we bring federal delivery experience across cybersecurity, cloud and application modernization, enterprise IT operations, and financial systems support. From modernizing Oracle-based federal financial platforms to strengthening cybersecurity and privacy governance, we pair technical expertise with practical solutions and close collaboration. We earn our customers' trust by following through on commitments, taking ownership of delivery, and adapting as mission needs evolve.

Core Capabilities

Cybersecurity & Privacy

Cloud security, CDM, governance and compliance, ISSO support, security assessment and authorization, risk management, security operations, secure development, and awareness training.

Program & Project Management

Business process reengineering, portfolio planning and governance, PMO services, program and project controls, quality and performance metrics, and staffing.

IT Systems & Services

Business intelligence and data management, CIO advisory and enterprise architecture, infrastructure and operations, independent verification and validation, and systems development, testing, and integration.

Cloud

IaaS, SaaS, and PaaS, cloud migration, identity management and credentialing, storage, and virtualization.

Financial Management

Budget planning and execution, financial reporting and controls, Oracle EBS and Federal Financials, and financial systems implementation, integration, and O&M.

Software Licensing & Asset Management

Commercial software procurement and acquisition support, vendor coordination and quote collection, software upgrades and renewals, license deployment and tracking, license inventory and entitlement reconciliation, utilization tracking, license reclamation and reassignment, compliance review, subscription and cost analysis, and spend forecasting.
